BRAND GUIDELINES 2026

Why one identity

Slides, posters and documents from every department should be recognisably **The Shaikh Ayaz University**. A shared brand layer, `saus-brand.sty`, now drives both the Beamer theme and this poster class, so the two cannot drift apart.

- Colours sampled from the university crest.
- One type family with matching mathematics.
- English, Sindhi and Urdu set side by side.

Contrast and accessibility

Every text colour is checked against WCAG 2.x. For relative luminances $L_1 > L_2$ the contrast ratio is

$$C = \frac{L_1 + 0.05}{L_2 + 0.05}.$$

Text	Background	Ratio
Ink	White	16.7:1
Maroon	White	10.2:1
Royal blue	White	13.1:1
Gold	Deep maroon	5.4:1
Gold	White	2.6:1

AA needs 4.5:1 for body text, so gold is used on deep maroon, never on white.

Colour

Maroon and royal blue come straight from the crest; gold and the neutrals support them.

Brand rules in brief

- Use the crest unaltered: colour on light grounds, white line-art on maroon or photographs.
- Maroon leads; blue supports; gold accents and never carries body text on white.
- One type family. Headings never hyphenate; text is ragged-right.
- Keep the motto in its own voice: *Revival of Educational Glory of Shikarpur*.
